Portrait / Glamour - Photo/Video Shoots

Each package includes all photo files on DVD, ready for printing, in both high resolution color, black and white, sepia and chroma key (selected photos produced at the discretion of Memories Preservation MultiMedia).

You own all the photo files supplied to you. There are no hidden charges or copyrights. We share ownership of these images. Client may choose not to have some or any images used in our future advertising and promotions.

If you desire prints you may take your DVD to any quality photo processor and have them made in any size and quantity.

Some packages include motion photo slideshows and video produced using your favorite music on DVD. This DVD will play on either your television or computer and is a wonderful way to experience your photo/video session.

Photo editing and retouching is available for the images you desire to print. Additional charge is dependent on number and nature of editing.

In as much as you completely control the use of the photos, you can relax and feel more at ease and have a blast during your shoot. Most end up sharing some of the images and keeping some private. Our goal is for you to relax and enjoy your photo shoot.

Beverages and snacks will be provided during your shoot.

We have 'on location' or 'in studio' photo shoot appointments during the day and in the evening. If you can come in during the day or during the week, appointments are usually available within one or two days, occasionally a week or longer during peak seasonal times. We encourage all of our customers to visit our studio or we may arrange to meet with you, prior to their session date. At the consultation, we can discuss clothing options and story or theme ideas you would like to incorporate into the session. Only through careful planning with our customers can we transform photographs and video into outstanding productions.

We highly recommend having a professional do your hair and make-up prior to your shoot. You may use your own or we may suggest a reputable salon for you.
